LED Lighting Instrument

zylight

Intelligent LED Lights

- Variable Color Temperature & Color Correction
- Full-Color Output for Washes, Highlights & Effects
- Built-in DMX & Wireless Control
- Unmatched Brightness - Unmatched Features
- Award Winning
- Rugged - Durable - Precise

zylight

IS3

LED Lighting Instrument

zylight

Simply the Brightest

The **IS3** combines Zylight's unmatched color-mixing technology and high-quality construction to meet the demands of location and studio professionals who require an *extremely* bright and wide soft source, while offering all of the innovative features for which Zylight is renowned: Fully dimmable with minimal color shift, adjustable color temperature and color correction, unlimited color control, integrated ZyLink™ wireless control, and rugged construction for years of reliable service.

Four-Color Mixing

Powering the **IS3** are twenty two high-brightness four-color LED modules, allowing for greater color control, more accurate color rendering, and beautiful, natural skin tones.

ZyLink™ Wireless Control

Zylight's advanced **ZyLink™** technology redefines the term "lighting system." If one Zylight isn't enough, wirelessly link together as many as you need to get the job done. Adjust the controls on any of the linked lights and they all change!

Our hand-held Remote also lets you adjust all features of the **IS3** from across the set or on-the-fly.

Unmatched Flexibility

Like a fine instrument each **IS3** is individually calibrated at the factory and fully dimmable. An integrated USB jack allows in-the-field updates and upgradeability.

Mounted on your stand or grip arm the **IS3** brings new levels of flexibility, creativity, and control to your lighting kit.

Truly intelligent lighting... Only from **Zylight**.

IS3 Specifications

Mechanical

- Size: 18.5" x 10.75" x 1.9"
- Weight: 11 lbs.
- Mounting: Yoke, Industry-standard mounting plate

Electrical

- Input: 48V DC
- AC Adapter: 100-240V, 50-60Hz
- Power: 220W max.

Output

- Beam Angle: 90°
- Dimming: 0↔100%
- Presets: *White Mode* - Two: User Defined
Color Mode - Two: User Defined
- LED Life: 50,000 Hrs min. before factory re-calibration
